Jonas Bjorkman
2002-2004 Doubles Wimbledon
Champion & Flex Court Owner

To Every Tennis Player,

“FLEX COURT® is truly the best Tennis Surfaces I have ever played on. The surface provides ball bounce and speed like a clay court.

FLEX COURT® has absolutely wonderful stress relief on ankles, knees, and legs. After one hour of play, my body feels like it has been on the court for only 15 minutes. It is fantastic to play on.”

The European influenced DIN tested FLEX COURT® tennis surface is designed to withstand heavy use over a 2 decade period and has become the most innovative tennis court system in the world.*

*As reported in the American Journal of Medicine.

ADVANTAGE Flex Court®

- **ALL-WEATHER COURT** - Our surface is designed with complete expansion and contraction to fit every climate condition.
- **SHOCK ABSORPTION** - ¾” thick shock absorbing co-polymer surface
- **FAST INSTALLATION** - Installs quickly over existing or new surface (One day or less per court)
- **REDUCED MAINTENANCE** - Covers existing cracks and chipped surfaces - No resurfacing or painting – EVER. (Save up to \$5000 / court per year)
- **IMPROVED GAME PERFORMANCE** - Medium/Fast ball speed, better ball bounce, no skid on lines – The Choice of Tennis Instructors
- **SELF DRAINING** – Fast drying, No standing water, Play in minutes after rain (All-weather, self-draining surface)
- **REDUCED HEAT** - Lower surface temperatures (much cooler than asphalt and concrete courts)
- **15 YEAR WARRANTY** - Over 25 year life expectancy makes it the highest performance-to-price ratio in the market.

All Weather Tennis Surface

Pros Recommend It - International Recognition - ITF & USTA Approved

PROFESSIONAL to BACKYARD

Certified tennis instructors around the world agree that FLEX COURT® is an ideal court for players of all ages, whether to help develop your game or simply enjoy more playing time. We design court systems from backyard to commercial facilities, and offer custom installation options to fit any budget.

- Tennis Clubs
- Hotels and Resorts
- Parks and Recreation
- Schools and Universities
- Athletic Facilities
- Community Centers
- Home Owner Associations
- Backyard Courts
- Sports Complexes

STRESS-FREE TENNIS

FLEX COURT® is designed with help of orthopedic surgeons and engineered with built-in lateral and vertical forgiveness. Our ¾ in (75mm) shock-absorbing suspended surface reduces playing fatigue, provides better ball rebound and gives exceptional game performance.

TROUBLE-FREE TENNIS

Our court surface is perforated for complete water drainage, removing the need for sweeping or use of squeegees making it virtually maintenance free. Just wait a few minutes, jump on and start playing.

RETROFIT EXISTING COURT SURFACES

Tired of all the maintenance problems associated with your existing courts? Then take a look at our court surface. Simply fill your cracks and cover your existing worn concrete or asphalt surface for a safer play and lasting beauty.

FULL DESIGN and BUILD SERVICES

We design and build tennis courts for every type of application and location. Customize your own backyard court or restore your existing cracked and worn out courts. Retrofit your high maintenance clay courts or give your community asphalt courts a brand new look. Professional Installation available by local licensed contractor.
